Instruction

You can first select action items that help you fill gratefulness within you to some extent and then move on to the action items that are related to expressing your gratitude.

Examples of Action Items that we can take up to build Gratitude

- ✓ Maintain a gratitude journal - whenever you felt happy about something, think of the reasons for it to happen and write about them in the journal.
- ✓ Write about 3 people who contributed for you to build good qualities within you and how they contributed to it.
- ✓ Write down the list of things you are grateful for in every minute aspect of your life.
- ✓ Put an object on your bedside such as a stone (This is also called as gratitude stone.) Use this stone to remind you about all the things that you should be grateful for in your life.
- ✓ You can take a gratitude walk in a park or some peaceful place nearby and feel grateful for everything given to us by nature to live happily on Earth.
- ✓ Gratitude Prayer before having food. Every time you are about to have food, give a thought and be grateful to all those who have contributed so that you have food on your plate. You can feel grateful and pray for them.
- ✓ Every day, when you look into the mirror - feel grateful for being healthy.

- ✓ Gratitude letters - Make it a habit to write thank you notes to those who helped you in any way. You can mention and appreciate the help you have received.
- ✓ Develop the habit of thanking the people who serve you - the shopkeepers, drivers, delivery boy, etc.
- ✓ Make a Gratitude Collage - Place all the pictures of the people/things that you are grateful for. You can use it as a Screensaver, Wallpaper, or any place you often look at.
