5. Maintaining very good professional bonding with colleagues
6. Maintaining confidentiality of the things discussed within the team or the organisation

Instruction

A system here could be your family, school, workplace, country, or so on

Examples for action items that we can take up to build Integrity

- ✓ Think of your family, teammates, etc. Pick one person who is facing some problem. If you are in a situation where you can support them, then support them in coming out of their problem.
- ✓ Think of one action that you can do to contribute more or be of more value to your family or team or friends.
- ✓ Resolve that you won't speak ill about anyone from your family/friends/team behind their back.
- ✓ Observe your communication with your people and see that you are not speaking hurtful words with them.
- ✓ Identify the strengths of each person in any of your system and give genuine compliments to them such that they feel confident about themselves or also happy about your action.
- ✓ See if you are being part of a problem in one of your systems like your neighbourhood (colony, apartments etc.) by throwing waste in public places, not following traffic rules, etc. Select one and resolve that you will correct it.
- ✓ List down the role your family, friends, team, etc. played in shaping you as a person. Also, think of one positive influence that you can make on them.

- ✓ If there is any person in your life with whom you are not maintaining a good relationship without any important reason? Check whether you can take a step to reduce the gap between both of you.
- ✓ Identify at least one problem within your team that is hindering the growth of your team. Propose solutions and see that your team gets rid of the problem.
- ✓ See that you are not manipulating in your work and that you are genuinely contributing from your side.

Example for implementation of an action item

Action Item

Identify problems within your team that are hindering the growth of your team. Propose solutions and see that your team gets rid of the problems.

Measurable : At least one problem

Time period : Within 15 days i.e., DD/MM/YY
